UNI-6RG

The UNI-6RG is an outdoor landscape garden speaker built-in 70V/100V transformer. The 70V/100V transformer technique reduces line losses on longer distance and allows easy parallel connection of multiple loudspeakers, thus the ADERTECH landscape garden speakers support more than 600 pieces per installation sound system and the transformer technology helps the amplifier to loudspeakers distance up to more than 10kms. The UNI-6RG built-in 6.25" waterproof coaxial PP speaker drivers are designed of wide frequency response 120-15kHz, the power tap of 30W could meet different outdoor area sound applications and ambient noise surroundings. The organic fiber glass reinforced composite enclosure of IP66 withstands of harshest abuse, heavy damage proof no color fade for many years outdoor like seashore & swimming pool use.

- Commercial public address (PA) system music & paging speaker with transformer
- Ideal for outdoor music and speech use in park, botanic garden, green area and zoo
- 6.25" PP coaxial waterproof woofer
- Rated power output 30W and Max. 60W at 100V
- Waterproof level of IP66
- Line input 100V or 70V by cable tail with waterproof gland
- UV protected ABS enclosure in green
- Easy installation in outside ground
- Special design of 360 degree angle sound dispersion

Model	UNI-6RG
Description	Outdoor Landscape Speaker
Rated Power Output	30W & Max. 60W
Speaker	6.25" PP coaxial waterproof woofer
Line Input	100V or 70V
Frequency Response	120-15KHz
SPL(@1W/m)	95dB
IP Rate	IP66
Connector	By speaker cable tail with waterproof gland
Dimension	Ø250×330mm
Material	UV protected ABS enclosure in green
Weight	2.9kg
