RUNA-8TX

RUNA-8TX - is a frameless ceiling 2-way loudspeaker featuring a 8” low frequency driver and 1” rotating tweeter. Has an effective power output of up to 60W RMS 8Ohm. Equipped with a 100V line transformer with 3.75, 7.5, 15, 30 and 60 W power taps. The frameless design ensures is the best choice for modern building installation. Thanks to hi-flex polypropylene cone for the low and middle range and high frequency tweeter the speaker is ideal for background music, paging system and other applications. The speaker baffle can made of robust ABS plastic for better low frequency sounds. The metal back cover protects the structural elements of the speaker system. Entire construction makes it suitable for different ceiling heights for indoor installations. Flash mount and magnetic grill fix make installation and maintenance fast and simple.
